

# Performance Coatings

## HARDNOSE™ PAINTS

**HARDNOSE™  
Paints are  
Mildew  
Proof!**

**HARDNOSE™** paints are tough, glossy, two-component coatings for use over primed or painted surfaces.

They are moisture cured, so exposure to moisture and humidity will actually improve their performance and strength.

When fully cured, **HARDNOSE™** Paints are rock-hard, chemical resistant, non-porous, and incredibly tough. Durable and easily cleaned, they will not crack, chip, peel, or fade with age.

**HARDNOSE™** Paints will withstand even the most intensive UV environments.

These beautiful, two-component coatings are stronger than any color paints you have ever tried. The long-lasting brilliant colors will look terrific wherever you use them, and will withstand incredible abuse. You'll be amazed and delighted at how well **HARDNOSE™** paints hold up under conditions that would quickly destroy ordinary finishes.

**HARDNOSE™** paints are also excellent for industrial applications. Use our

safety yellow or orange colors on machinery guards or heavy equipment, and then stand back and marvel at how long they last under abuse.

Put **HARDNOSE™** Paints on the chassis of your car, truck, or motorcycle, and quit worrying about stone chips and gravel roads. You'll be amazed at the toughness!
